Divinycell F

THE HIGH PERFORMANCE SANDWICH CORE

Divinycell F foam is a recyclable, prepreg compatible sandwich core offering excellent Fire, Smoke and Toxicity (FST) properties, good mechanicals and processing characteristics. It meets the US and European regulatory requirements for commercial aircraft interiors. Other key features include vacuum bag processing up to 220°C and matched tooling and press processing up to 220°C,

exceptional fatigue life, good chemical resistance and excellent heat ageing at 180°C. Divinycell F is compatible with most common aerospace composite manufacturing processes.

Divinycell F is now available in wider sheets for optimal surface finish.
